Japanese Premier Meets Death at The Hand of Assassin

NATION IS SHOCKED
AT UNTIMELY DEATH
OF PREMIER HARA

(By Associated Press)

TOKIO, Nov. 4.—Premier Hara was fatally stabbed in the breast at the railroad station here today.

The assassination of Premier Hara comes at a dramatic moment, when the Japanese delegation is assembling for the Washington conference and when Japan is intensely interested in the international issues in which Hara has until now taken such an important part. He had been urged to head the delegation to Washington and for a time had the matter under consideration, but finally decided that his services could be better employed at home during the discussions in Washington. Hara declared in recent statements that Japan was ready to accept the limitation of her naval establishment along with the rest of the world, and always keeping in mind the necessities for her national defense.

(By Associated Press)

WASHINGTON, D. C., Nov. 4.—Official advices from Tokyo announcing that Premier Hara had been stabbed fatally were received at the state department soon after press dispatches brought the news of the assassination to the United States. The Japanese embassy officials and members of the Japanese delegation to the armament conference were greatly depressed. Secretary Hughes said he was greatly shocked.

Five of the men, after receiving treatment, were able to leave the hospital. Frank Heekin, who inhaled more of the deadly fumes than his companions, is still confined to the hospital, but will be about tomorrow. The gas was caused by burning powder which did not explode when the 3 a. m. shift went off duty.

DEAL PENDING
BETWEEN R. R.
AND MERGER CO.

Significant of the extent to which the officials of the Tonopah & Goldfield Railroad company who lately, through the newly organized Fish Lake Imperial Oil company, acquired holdings in the Fish Lake valley preparatory to drilling, are to become interested in the Fish Lake field, and pressing activity there which will prove the field, a meeting of officials of the railroad company and the Fish Lake Merger Oil company is in progress this afternoon at the offices of Hugh Henry Brown, attorney for both companies.

M. B. Cutter, president of the railroad company, accompanied by officials of the road, including R. W. Cattermole and W. D. Foster, arrived here today, and with Charles W. Taylor, president of the Fish Lake Merger Oil company, are in conference this afternoon, the outcome of which may link up the Tonopah & Goldfield Railroad company with the Merger company in the future prosecution of drilling development in the valley.

It is learned by The Bonanza on excellent authority that while negotiations have not been closed, the deal, if consummated, will assure the Merger company sufficient financial backing for its well, which is now close to 1000 feet in depth. While no details of the proposed plan of co-operation have been made public, the officials here today admit that they are here for that purpose.

Should an arrangement of this nature be consummated, Fish Lake valley immediately takes on a new significance in the oil situation pointing to assured success of the pioneer well insofar as its being drilled to a positive depth. President C. W. Taylor, who was called in from the well for the meeting, is reticent relative to the plans of his company, and while he would not say what the meeting would develop, did say that in no case would the future plans contemplate the disposal of the Merger company.

Therefore, it is declared, neither Czechoslovakia nor Yugoslavia will demobilize.

GEORGE IS
HOPEFUL
OF COMING
TO AMERICA

(By Associated Press)

LONDON, Nov. 4.—Lloyd George still hopes it will be possible to carry out before long his intention of going to Washington and taking the leadership of the British delegation at the armament conference, it was declared today by Austen Chamberlain, government leader, in commons.

The house of commons unanimously adopted a motion by labor members "warmly approving" the approaching Washington conference.

Hugh O'Neill, speaker of the Ulster parliament, declared that without America the league of nations could not be the great instrument for the peace of the world which it had been hoped. Consequently humanity turned to the Washington conference which, he trusted, would give the same results as had been hoped for from the league.

CARR RECEIVES
LIFE SENTENCE
IN CAL. COURT

On September 30 at Long Beach, California, in the superior court, Edwin Carr, who was out on parole from the San Quentin penitentiary, pleaded guilty to assault with intent to kill and was sentenced to life imprisonment. The case against Ralph Hewitt, his accomplice, still is pending.

On September 13 these two men arrived in Tonopah driving a Cole automobile, which they tried to dislodge at the Midland garage for \$400, and shortly afterward they were arrested by Chief of Police Cochran and Deputy Bob Dalzell. The two men had hired the owner of the car at Long Beach to drive them to Riverside, and when upon the highway Carr struck the taxi driver on the head, then placed the unconscious man on the running board and allowed it to drop to the road as they traveled along. The taxi driver recovered and appeared in court against Carr, who confessed to the charge. His companion, Hewitt, has a previous bad record as a hold-up man.

During these two years the population of Rome has increased at the same rate as it did before the war, some 21,000 new inhabitants having arrived in the course of one year.

AVERILL'S COMMUNICATION
WILL APPEAR TOMORROW

M. R. Averill, district judge, has sent a communication to The Bonanza asking that the same be printed. The request will be complied with in tomorrow's issue.

(By Associated Press)

WASHINGTON, D. C., Nov. 4.—Senator Watson told the senate committee his charge that 21 American soldiers had been hanged in France without trial was based on a statement of a soldier who said he had seen the gallows and had been told by a sentry guard that this number of men had been hanged.

Watson declared he had the constitutional right to present his case in open senate, and intended to do so. "Why not debate this here in the open, and meet me face to face?" he asked. "Why trap to entrap me and cage me and silence me in the committee room? If there is anything cheaper in this country than human life it is whitewashing a calamitous report. Does the general staff want to hide in the committee room?" Watson continued. Watson said he was fighting the "military clique and Prussianized system," and that "we have not reached the point of militarism where it is a crime to criticize the army," which he said was the stage "Germany had reached before the breaking out of the war."

A new resolution ordering a special committee to investigate the charges of Senator Watson regarding treatment of prisoners in the A. E. F. was adopted unanimously by the senate after two hours' debate.

Watson read letters and other documents dealing with alleged hangings of American soldiers. He said he had "further evidence fresh from the made this morning," and read from a magazine quoting an unnamed officer as saying he was informed the Red Cross had built a gallows for the A. E. F. on which to hang men, and asking that all records of the transaction be removed from the files and burned.

(By Associated Press)

NASHVILLE, Tenn., Nov. 4.—General Pershing declared here today that the charges brought in the senate by Watson were "most outrageous and untrue accusations that could possibly be made and that they were absolutely without foundation."
